

Vinay Pandey

Full Stack Web Developer

8076936158 | abhi837688@gmail.com | LinkedIn | Portfolio | GitHub
New Delhi, India

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap 5, Next.js, TypeScript

Backend: Node.js, Express.js, RESTful API Development, JWT Auth

Database: MongoDB

Tools: Git, GitHub, Postman, VS Code, Vercel, Render, Google Search Console, GA4

EXPERIENCE

KWT Education

Delhi, India

Full Stack Developer Intern

March 2026 – Present

- Contributed to the development and scaling of full-stack web applications, delivering responsive frontend interfaces and secure backend features based on business requirements.
- Developed and integrated RESTful APIs using Node.js and Express.js to streamline data management and optimize application workflows.
- Built and enhanced dynamic administrative dashboards, user management modules, and content management features using React.js and MongoDB.
- Collaborated on CRM, LMS, Job Portal, and Ticket Management System projects, actively participating in feature development, system testing, and end-to-end debugging.

Alps Insurance

Delhi, India

Frontend Developer Intern (Training)

Jan 2026 – Jan 2026

- Refactored existing frontend architectures to ensure 100% responsive layouts across all screen sizes, significantly improving cross-device user experience.
- Integrated and customized in-build React.js components using Tailwind CSS, streamlining design consistency
- Connected frontend interfaces with RESTful APIs, managing secure state flows and seamless JWT authentication for user sessions.

PROJECTS

ResumeTrust AI | React.js, Gemini AI API, GA4, SEO, Vercel

- Developed an AI-powered ATS scoring platform** using Gemini AI API to analyze resumes and cross-verify real-time candidate GitHub data.
- Implemented full-site SEO strategies**(sitemaps, robots.txt), securing an **Average Position of 1** for targeted queries on Google Search Console.
- Configured secure client-side routing** and dynamic user activity tracking via GA4 to monitor core platform engagement.

Job Portal | React.js, Node.js, MongoDB, Tailwind CSS, JWT

- Built a full-stack MERN job portal** featuring role-based authentication and secure RESTful APIs for job lifecycles and user profiles.
- Designed separate, interactive dashboards** for recruiters and candidates, integrating advanced search filters and application tracking states.

Learning Management System (LMS) | React.js, Node.js, Express.js, MongoDB, JWT

- Created a MERN-based LMS** with robust role-based access control, featuring an interactive student dashboard for course enrollment and progress tracking.
- Developed backend RESTful APIs** to manage course structures, automated quizzes, assignments, and file submissions securely.
